Information Display Enhancements, Inc.
1720 Belmont Avenue, Suite E
Baltimore, MD 21244

Phone 410.944.2762 / Fax 410.944.3814

Providing
**Ruggedized LCDs, Computers,
Enclosures and
Flat Panel Display Enhancements**
For
**Law Enforcement,
Government and
Military
Applications.**

IDE is an LCD and systems value-add solution provider, offering a complete range of innovative products and services for industrial, **government, aerospace, security** and computer markets by improving standard attributes to meet demanding application designs.

Visibility problems are inherent with LCD displays under certain lighting and environmental conditions. Enhancements and value-adds can be customized to maximize attributes for application requirements.

IDE's goal is to maintain its position as a leading provider of high-quality enhancement products and services for the LCD market. IDE depends solely on market partners to present IDE with value-add design opportunities. IDE is, in the truest sense, an LCD market "solutions provider."

Our A+ and IS CET certified technicians, supported by electrical and design engineers coupled with a complete research & development staff, can develop a single prototype or mass produced, ready-to-use turnkey units, achieving or exceeding price/performance goals.

If you have an LCD, IDE can

"enhance your point of view."
